

Handmade Tiles

by Keramos Tile & Stone

Keramos Handmade tiles are produced manually by artisans. The clay mixture for the biscuit is made using a hand press to mold the biscuit into shape. The artisan then uses a pottery kiln to fire the biscuit. The biscuit is then glazed by hand to give it its characteristic handmade look. Using unique molds and dyes we can achieve a plethora of shapes and colors.

Production Process for Keramos 'Azul Series' Handmade tile

Keramos Handmade tiles are produced manually by artisans. The clay mixture for the biscuit is made using a hand press to mold the biscuit into shape. The artisan then uses a pottery kiln to fire the biscuit. Hand pressed and hand cut into various shapes, the Azul series handmade tile is glazed by hand and fired to create a distinctly hand crafted look. The biscuit is then glazed by hand to give it its characteristic handmade look. Using unique molds and dyes we can achieve a plethora of shapes and colors. Craftsmanship and tradition is revived by KERAMOS to give you beautifully handcrafted, high quality tiles for bathrooms, kitchens and swimming pools, with a sophisticated color palette and unique shapes.
