

Azul Handmade Tiles

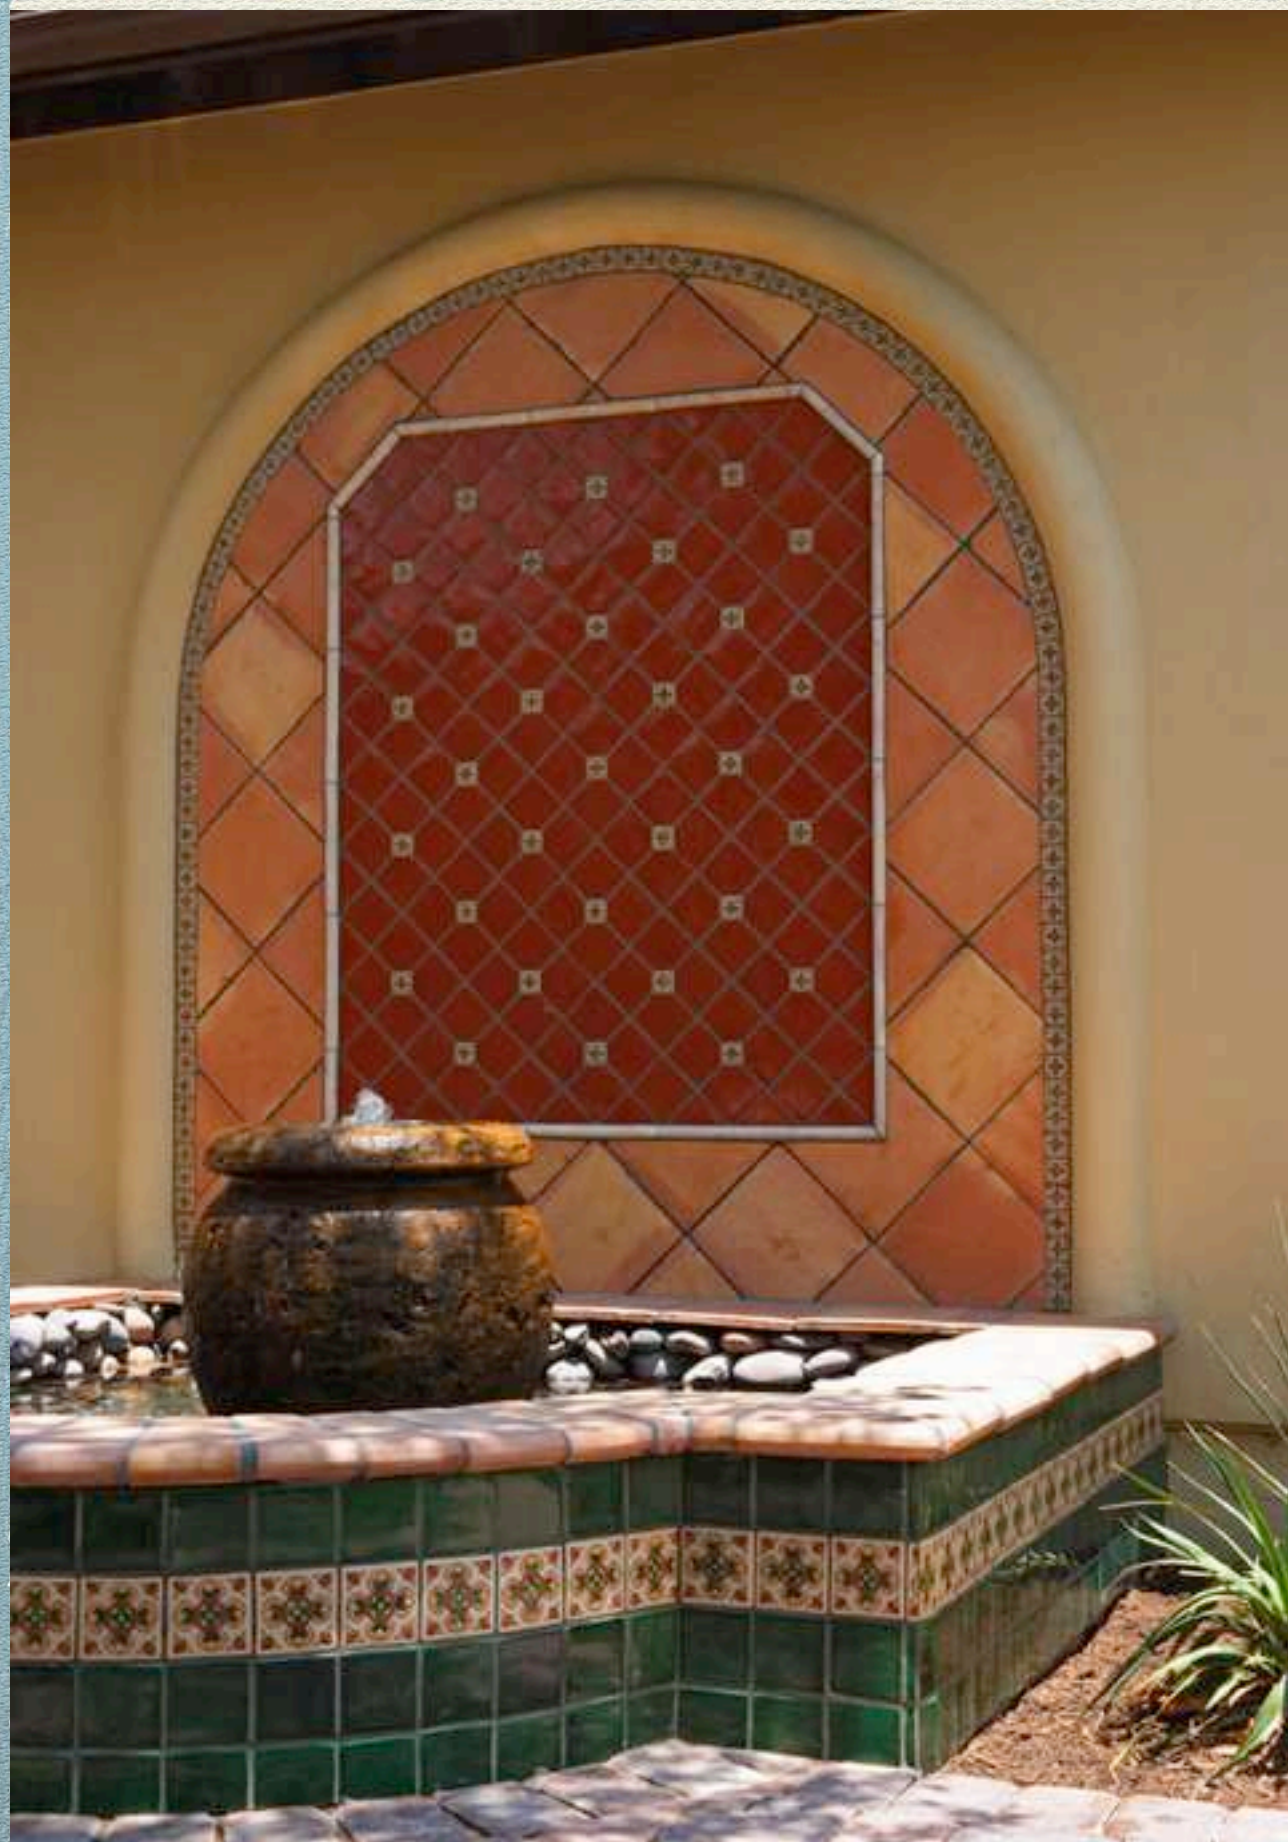

Keramos Tile & Stone

Keramos Handmade tiles are produced manually by artisans. The clay mixture for the biscuit is made using a hand press to mold the biscuit into shape. The artisan then uses a pottery kiln to fire the biscuit. The biscuit is then glazed by hand to give it its characteristic handmade look. Using unique molds and dyes we can achieve a plethora of shapes and colors.

Square

*Appealing for swimming pools,
water bodies & bathrooms*

Subway

*Initially used in New York's Metro,
and in post-modern structures in
New York thereafter*

Beautiful Shapes

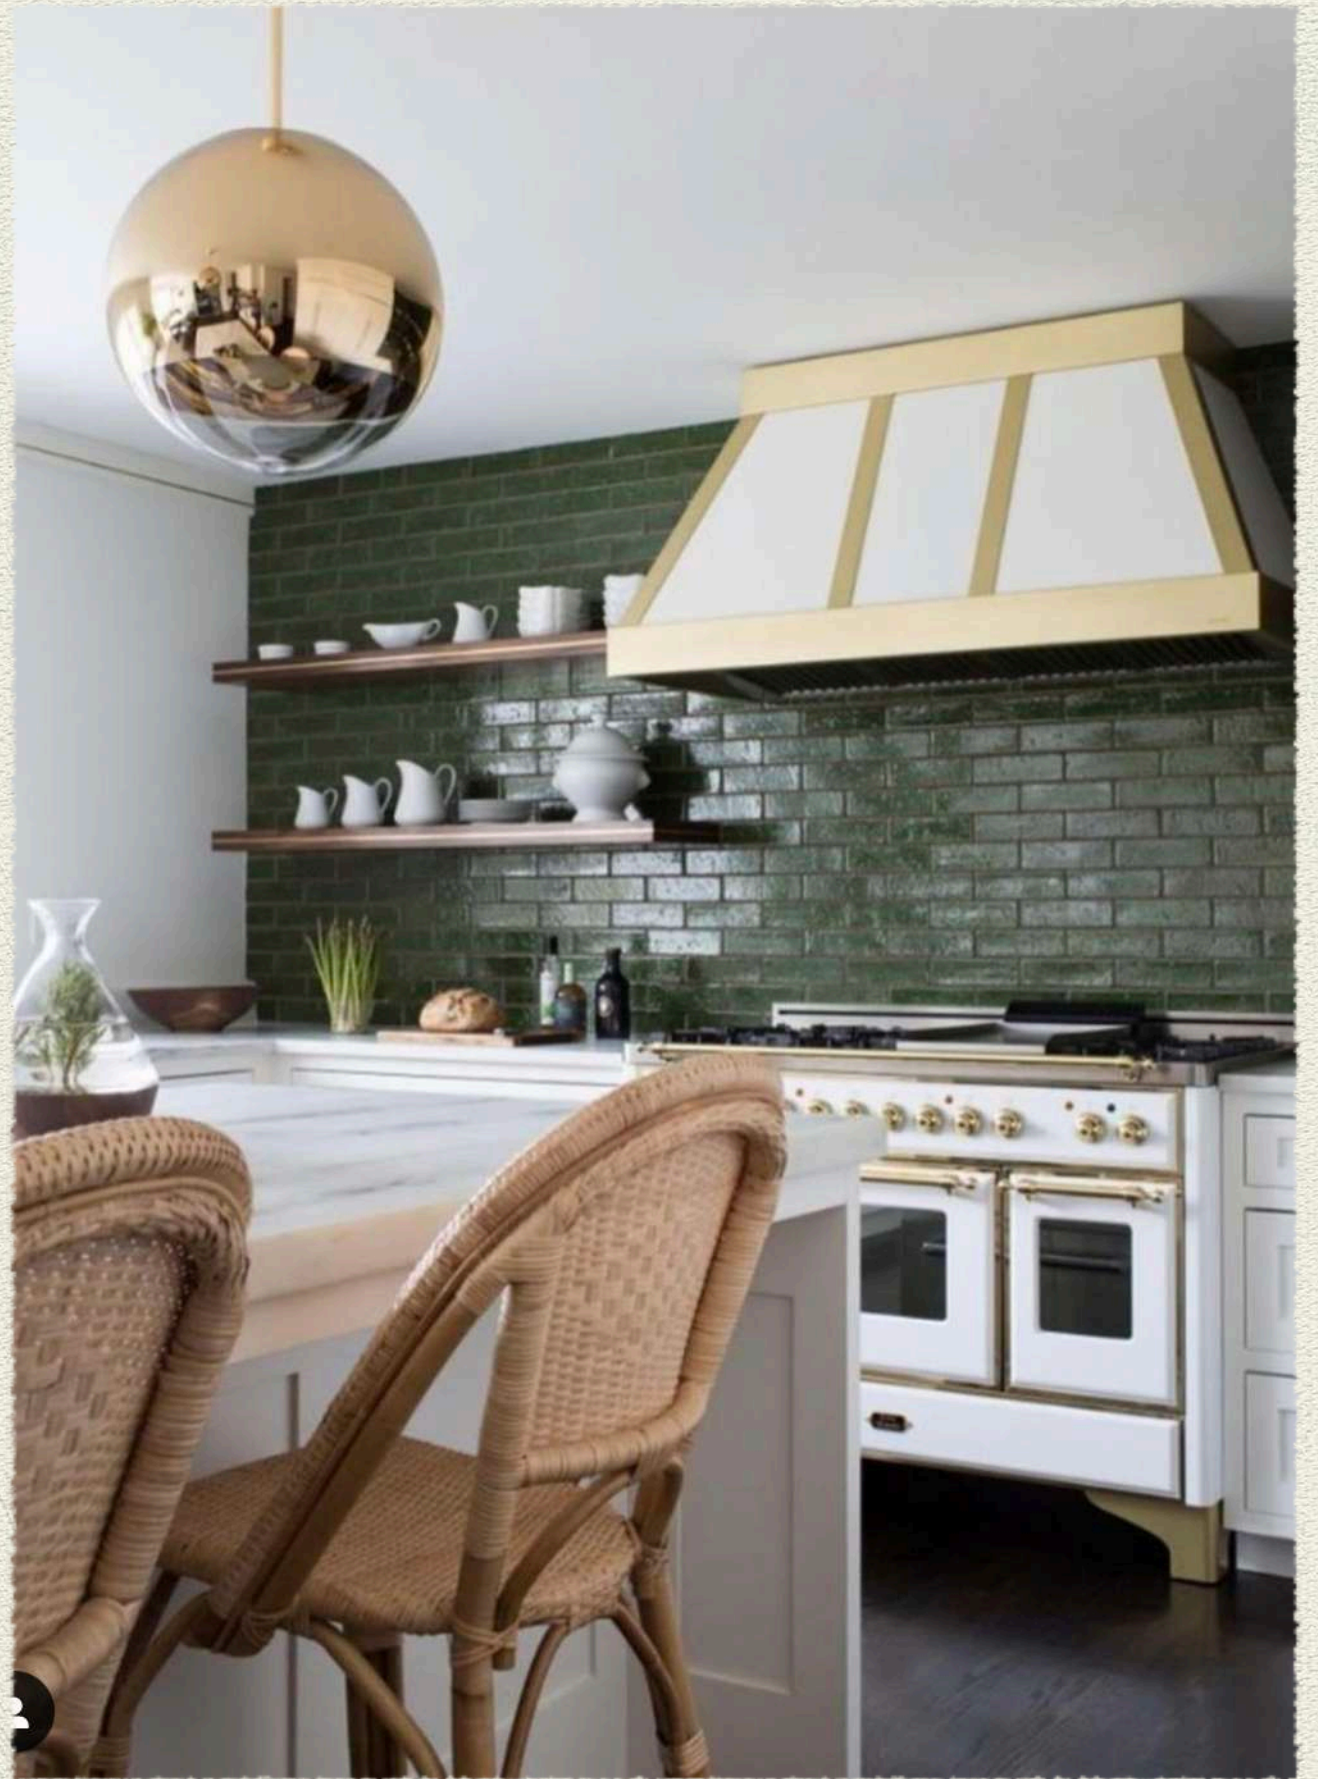

The possibilities are limitless

Kitchens

*Classically used in Kitchen
backsplashes because it does not
stain with cooking fumes. And very
pleasing to the eye!*

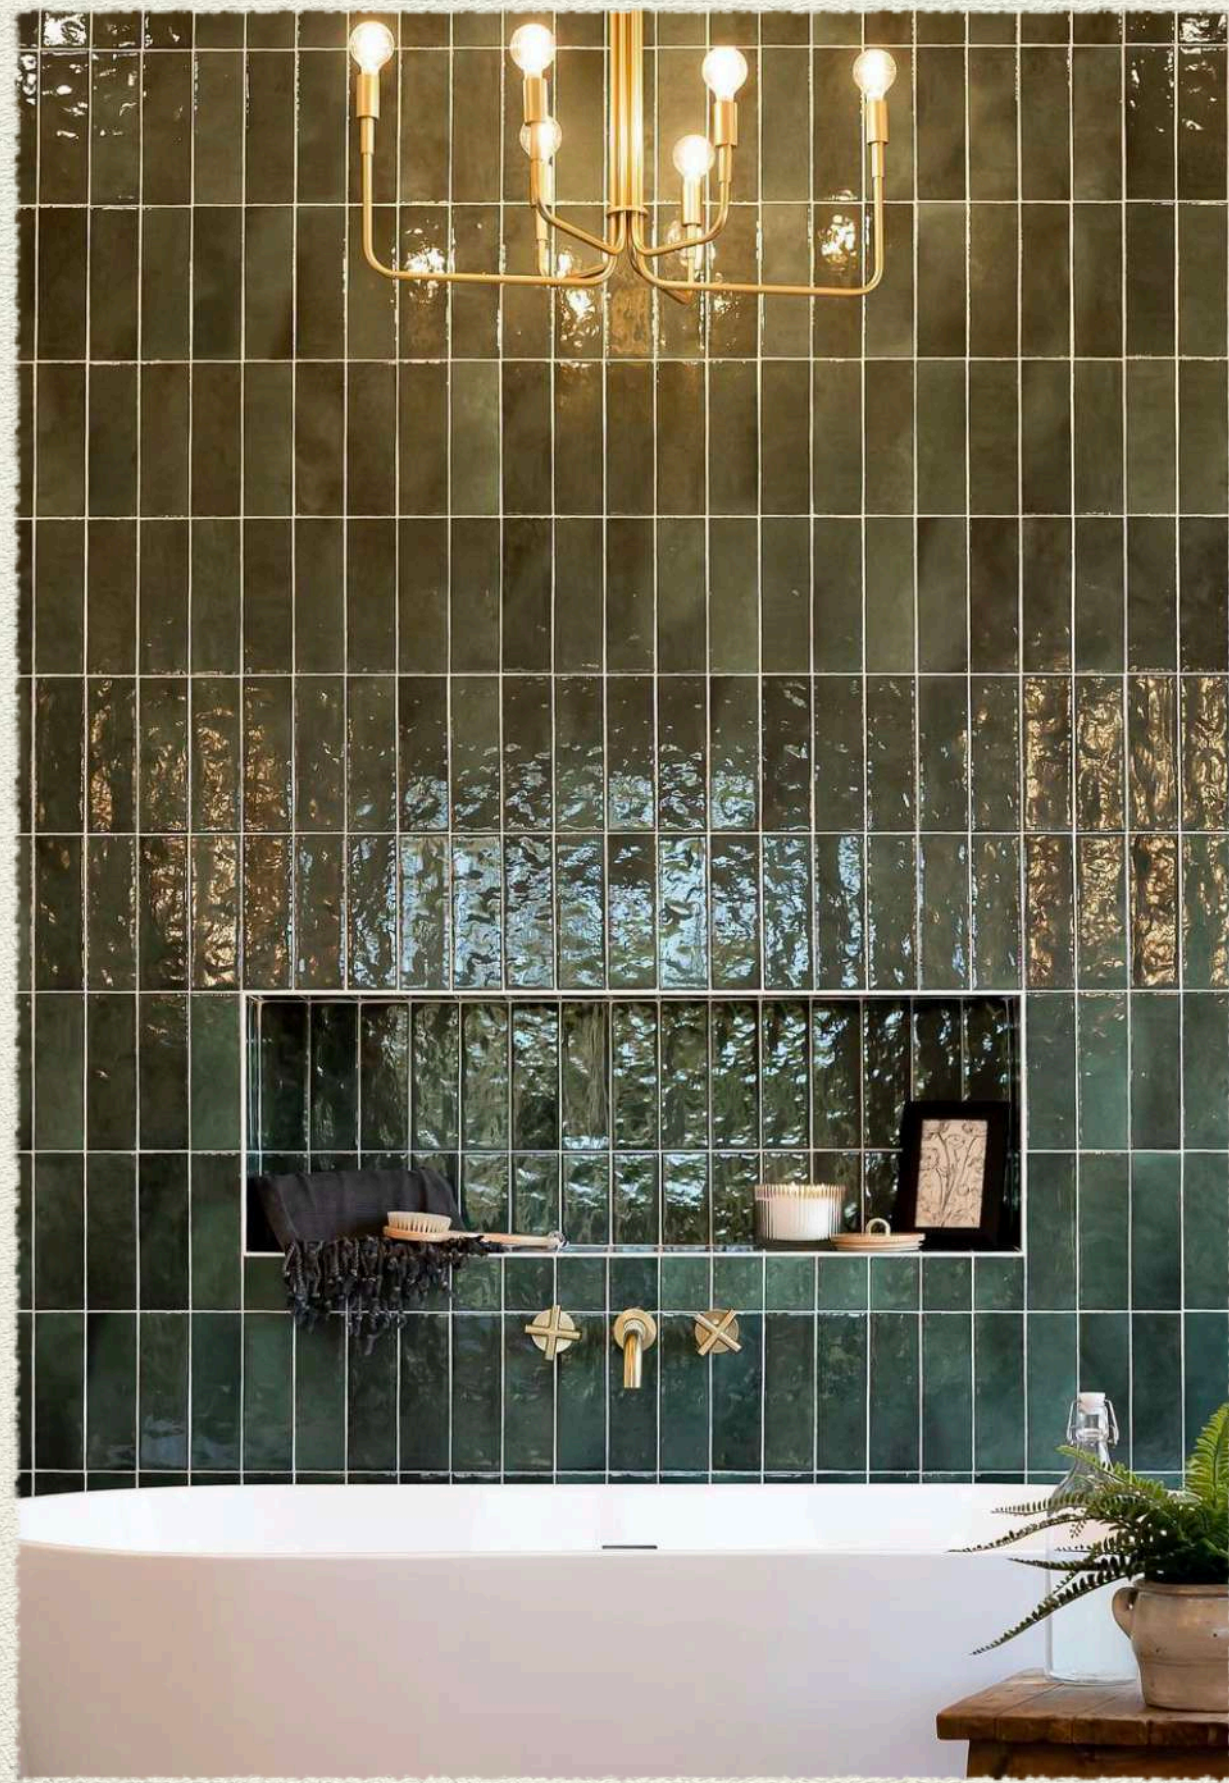

Bathrooms

Handmade tiles look beautiful in bathrooms. They can be applied on the floor and walls. Also selectively can be applied on backsplashes and wet areas like the shower cubicle.

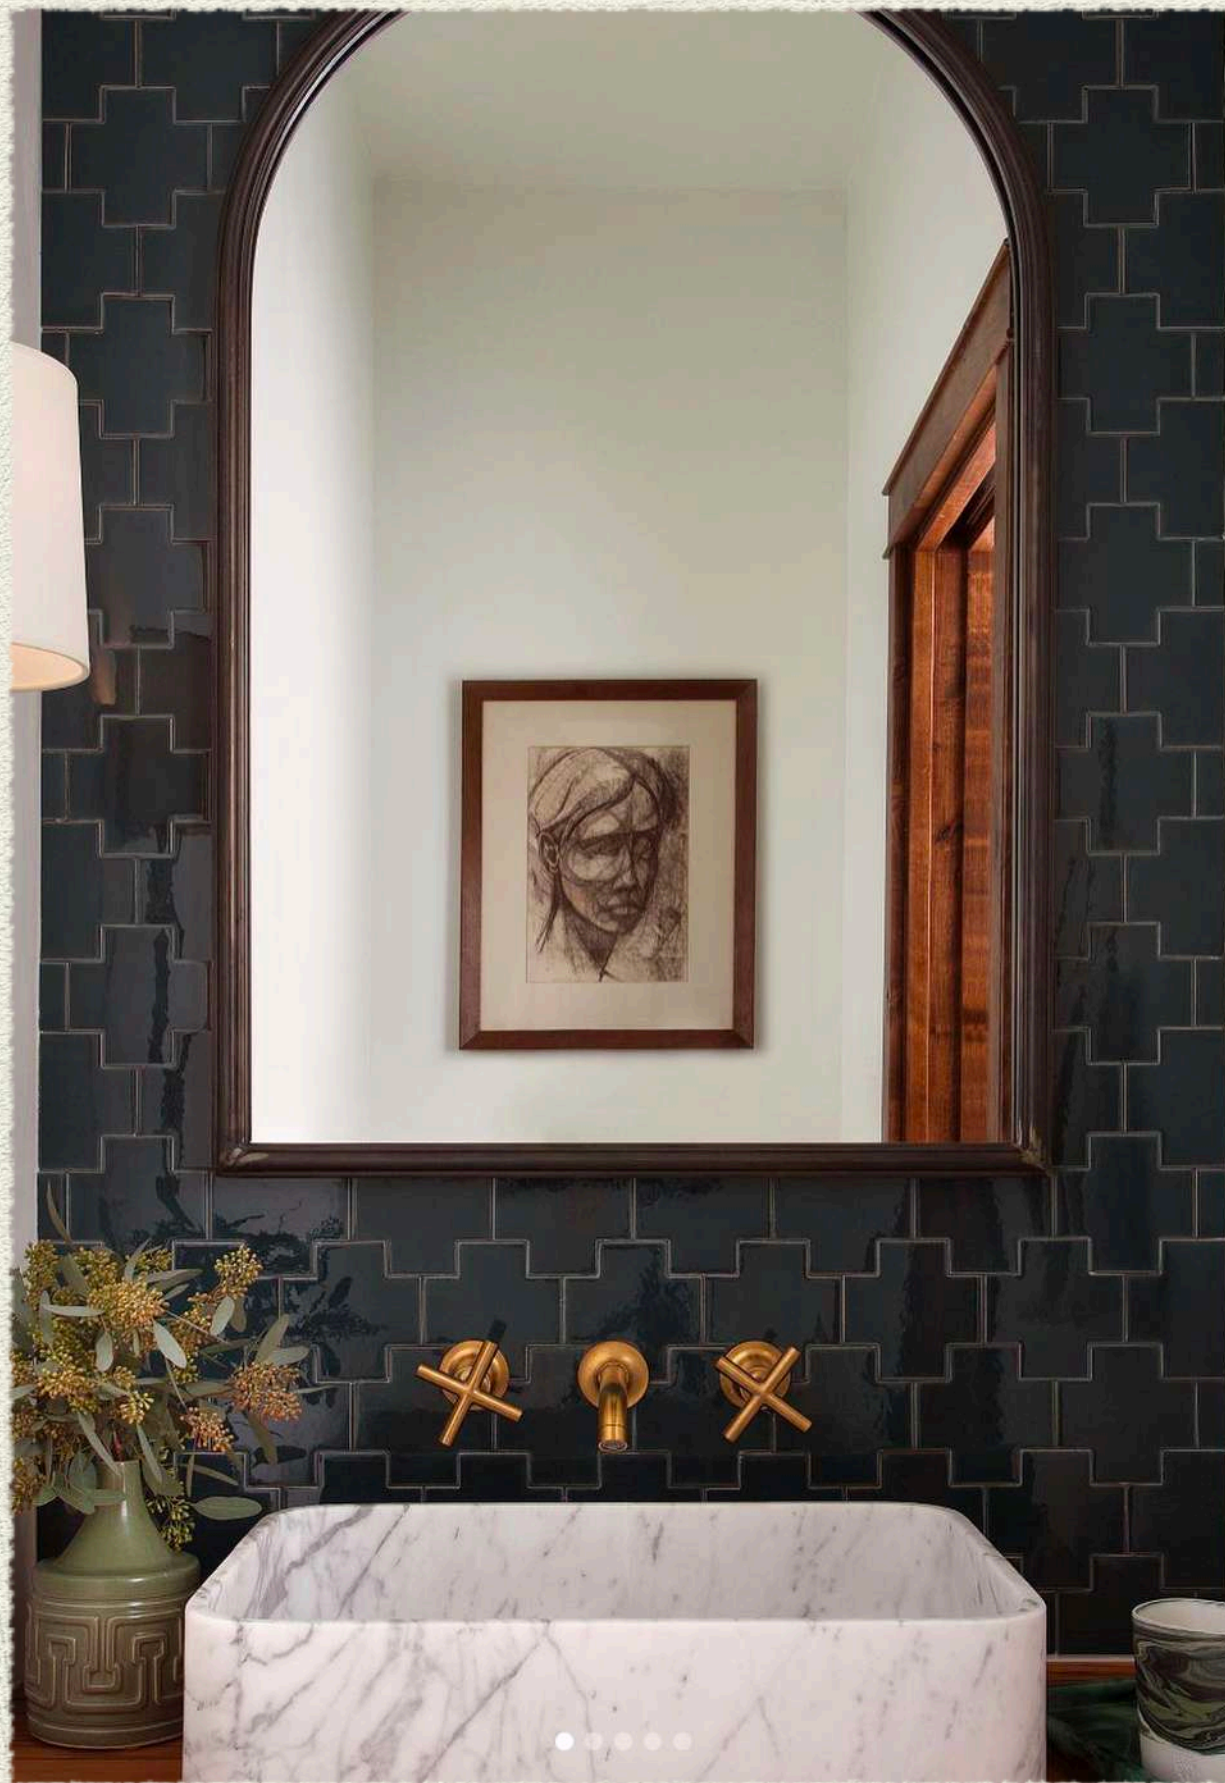

Pool Areas & Water Bodies

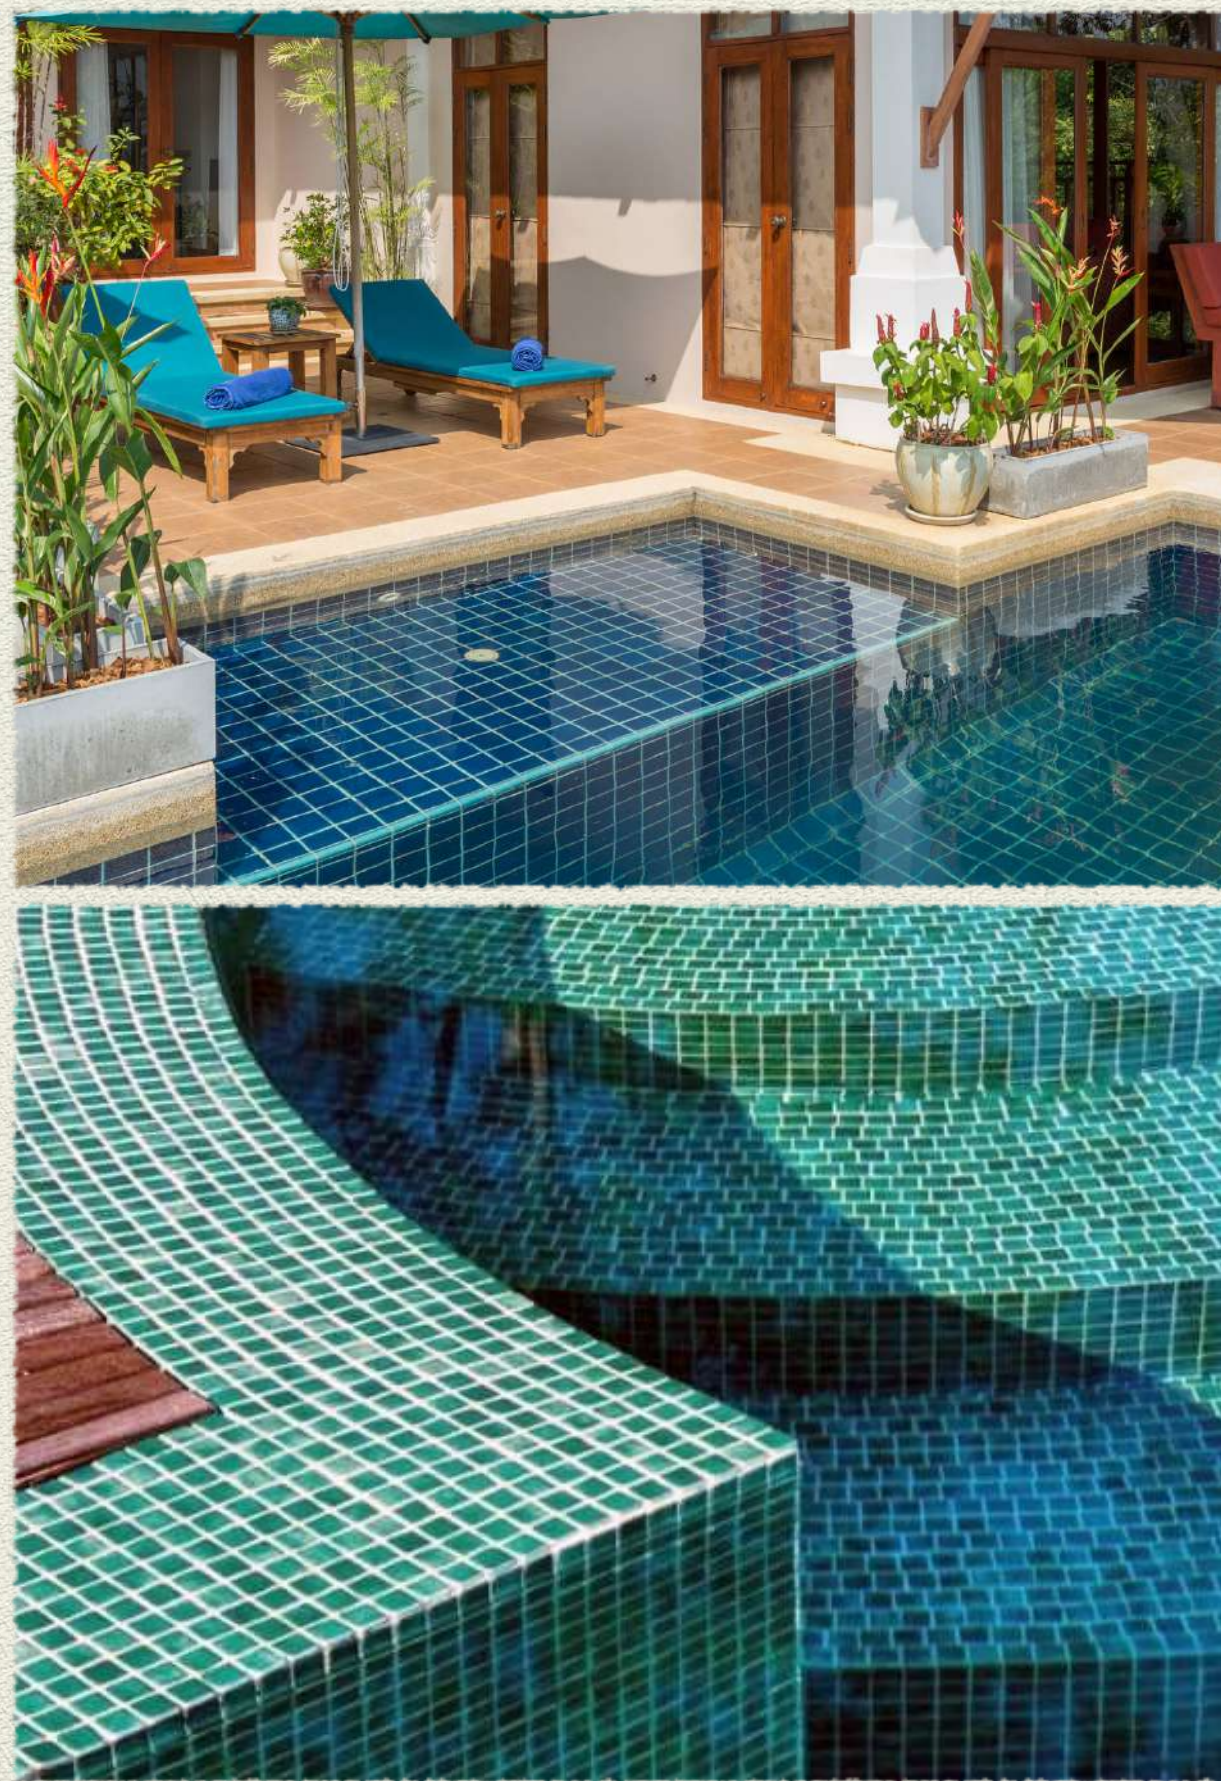

Our Handmade tiles are tailor made for your pool and other water bodies. Heavy duty and long lasting, they can take abuse from harsh sunlight, dissolved salts in the water as well as harmful cleaning chemicals. They just look great year after year!
